

# MODEL AERONAUTICAL ASSOCIATION OF AUSTRALIA

## CLOSE FIELDS OPERATION POLICY AND PROCEDURE ADVISORY

MOP008

APPROVED: MAAA President

Date: 14/08/2015

## **CLOSE FIELDS OPERATION POLICY AND PROCEDURE ADVISORY**

With the widespread use of 2.4GHz and the benefits that this frequency permits in general, if one (or more sites) are only operating in the 2.4 GHz Band the MAAA does not place any specific frequency related restrictions on the operations.

Clubs should consider guidance if other than 2.4GHz equipment is involved.

Contact the MAAA Secretary for further information.
